

# 7 principles to adopt and embed Person-Centred Care in your organisation

This Infographic is an introduction to the opportunities possible in adopting the principles of Person-Centred Care in your organisation. There are many factors to consider, and by visualising the concept on a single page, the intention is to give you the opportunity to reflect and identify areas you would like to know more about.

Then, go to the PERSON-CENTRED CARE - A TOOLKIT FOR PROVIDERS, which will guide you through the steps to achieve PCC in your organisation.

Share this Infographic with your peers and colleagues to start the conversation, compare notes, and to increase the awareness and adoption of these fundamentals when providing care.

## Step 1: Defining Person-Centred Care

What PCC means, and how it contributes to workforce performance

## Step 2: Checklist to determine person-centred care readiness

How ready is your organisation and what may be preventing adoption

## Step 3: Raising the profile of the PCW role

Valuing the role of the PCW and enabling their work

# 7 principles to adopt and embed Person-Centred Care

## Step 4: Attracting the Right People

Employment criteria to consider when growing your workforce

## Step 5: Streamlining processes and workplace practice

Support your PCW's so they can provide person-centred care support

## Step 6: Provide training and development pathways

Why its important and what's on offer

## Step 7: Develop a people-centred workforce strategy

Reflection before embarking on a strategy to focus efforts
